Combi Condensation Hood

MODELS:
AEC11C / AEC21C

Standard Features

- Steam Capture & Condensation: Efficiently extracts and condenses steam from oven door openings and cooking cycles
- Self-Contained System: Does not require external ductwork; plugs directly into existing electrical connection
- Filtration: Equipped with a removable stainless-steel filter for easy cleaning
- Compact Design: Sized to integrate seamlessly with the Atosa combi oven footprint
- Durable Construction: Heavy-duty stainless steel for long service life and easy sanitation
- Maintenance Friendly: Front-access removable filter
- Construction: Stainless steel frame
- Airflow Capacity: 250–400 CFM
- Condensation Efficiency: Up to 95% steam reduction at oven door opening
- Grease Filter: Stainless steel, dishwasher-safe
- Condensate Collection: Integrated drain for water removal
- Connection: Plug-and-play electrical connection with separate water and drain line connection needed
- Controls: Manual on/off Switch
- Noise Level: <65 dB(A) during operation
- Certifications: UL listed, NSF certified
