

NITRON[®] Gas Module

NITRON Gas Module

Dimensions: 4.7" H x 8.3" W x 14.6" D
(11.9cm H x 21.1cm W x 37.1cm D)

Features

Gas Module for Nitron Countertop Cold Draft Dispenser

- Compact, space-saving design produces its own unlimited supply of gas for the Nitron dispenser, eliminating the need for high-pressure tanks and nitrogen generators
- The Gas Module features integrated multi-stage FDA-compliant filters to remove impurities and moisture from the air
- Compatible with all Nitron Cold Draft dispensers, the modular unit can be installed under or next to the machine or beneath the counter in a cabinet. Its modular design works with both new and existing Nitron dispensers already in service
- Plugs into a 120V outlet for easy set-up and includes 8-feet of gas line with ¼" female flare fitting (washer included) for quick connection to the Nitron dispenser
- System design allows for quick access to internal components for ease of service, with just a few hand tools.
- PM frequency to replace the internal air filters requires Annual schedule with 1 Nitron dispenser and every 6 months when connected to 2 Nitron dispensers.
- Supports up to two Nitron dispensers
