

BROASTER®
EQUIPMENT

Oil Caddy - Shortening Shuttle®

Standard Features

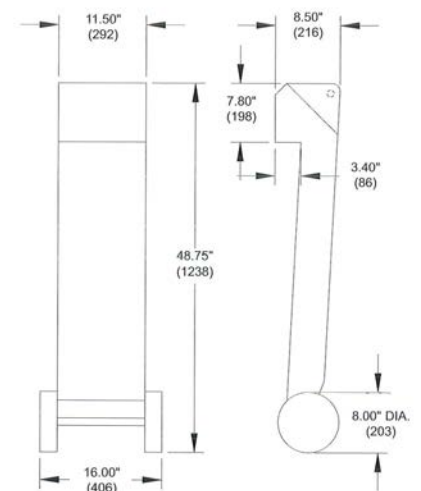

- *Safe and convenient* – way to transport used oil from your pressure fryer to where it may be properly disposed of.
- *Easy oil disposal* – allows oil to be drained from fryer in a single trip, for fast, easy disposal.
- *Unique design* – fits easily under any model Broaster Pressure Fryer. Also works with most open fryers.
- *Reduced cleanups* – since oil is contained inside the Oil Caddy there is no spilling or overflowing, thus reducing cleanups.

Dimensions

Cooking Oil Capacity	Overall Dimensions			Net/Ship Weight
70 lbs. (31.75 kg)	W	D	H	23/27 lbs.
	16"	8.5"	48.75"	
	(406 mm)	(216 mm)	(1238 mm)	

Additional Features

- Made using a thick gauge aluminum (0.11") with double walled seams.
- Perforated baffle screen helps to prevent splashing while the oil is draining into Oil Caddy.
- Two hard plastic handles at both ends of the Oil Caddy help to minimize heat transfer from the oil.
- Two eight inch wheels make transporting the oil easier than ever.

Optional Accessories

- PN 17848 - Oil Caddy Stainless Steel Hook
- Intended to hold caddy against the wall, not lift it off of the floor.
- Make sure oil caddy is empty prior to hanging on hook
