

# 2024 Extended Warranty Programs

## Protect your investment

Your Franke machine must be covered under an existing Franke warranty to be accepted into the Franke Extended Warranty (EW) Program. A second to fifth-year warranty can be purchased at the time of machine purchase or before the current warranty expires.

Included in the price of the extended warranty is a required yearly Preventative Maintenance (PM) visit, designed to proactively inspect and/or replace all wearable parts, such as the brewing module, O-rings, filters, etc. This warranty covers defects in material and workmanship under normal usage (limitations apply). Please refer to the FCSA Warranty Statement for these limitations.

This program offers a 5% discount when purchased at the time of your machine purchase.

### EXTENDED WARRANTY WITH PREVENTATIVE MAINTENANCE (Pricing valid if purchased upfront with machine)

# 2024 Preventative Maintenance Programs

## Optimize your operation

Preventative Maintenance (PM) visits are crucial to keeping your machine in optimal operating condition. A PM program (up to 5 years) can be purchased at a discounted rate at the time of machine purchase or at a standard rate anytime thereafter.

All PM visits are designed to inspect and/or replace specific wearable items related to the hydraulic system, brew unit, and milk system (if applicable). The parts replaced can vary during each PM visit.

The first PM visit by Franke certified technicians will be scheduled at the 12-month mark after installation, with follow-up PM visits performed annually unless otherwise recommended.

If you purchase Extended Warranty coverage, you do not need to purchase a PM program separately.

### PREVENTATIVE MAINTENANCE (Pricing valid if purchased upfront with machine; multiple-year options available)
