PRO 

What You Need to Know

- Koolaire ice machine models in K150 – K700 sizes include a filtration solution at no additional cost
- Filter and head are packed securely inside the ice machine cabinet
- Replacement cartridges are sold through distribution and dealer networks only
- Filter systems should be installed by an authorized installer or a licensed plumber

Features & Benefits

- Slow Phos* polyphosphate inhibits scale build-up, to help keep components cleaner for longer, as tested by Pentair
- Filters out particles down to 5 microns for more efficient production of high-quality ice
- Reduces chlorine and taste and odor for cleaner, great-tasting ice
- Reduces cleaning frequency and costs and helps to extend ice machine life
- Quick-change connection and a shut-off valve on the manifold for easy, sanitary filter replacements
